- 
- Care provided by a dedicated nursing team and an **emergency doctor.**
 - In the event of hospitalisation, care is provided by the **clinic's medical and surgical teams**, including those on call in the evenings and at weekends.
 - A diagnostic and interventional imaging platform (**MRI, scanner, ultrasound**) and a medical **biology laboratory** are available 24/7 to carry out the examinations and analyses required for patients from the emergency department.

SOS Hands

- Care provided by an expert nursing and surgical team specialised in hand surgery.

The emergency department at the Clinique du Parc Impérial is the only emergency department in the city centre and is regulated by the Agence Régionale de Santé (ARS).

The SOS Hands service is also accredited by the European Federation of Emergency Hand Services (Fesum).
